

## SIEGEL MAY BE NEXT U. S. DISTRICT JUDGE

Representative Said to Have  
Strong Indorsement for  
Appointment.

### WOULD SUCCEED MAYER

H. W. Goddard and F. A. Wins-  
low Mentioned for Newly  
Created Circuits.

Isaac Siegel, 104 East 116th street, representative in Congress, probably will be appointed Judge of the United States District Court here to succeed Judge Julius M. Mayer, it was learned yesterday. The vacancy was caused by the recent promotion of Judge Mayer to the United States Circuit Court bench. The two United States District Judges, recently created by Congress—one in New York and one in Westchester—also are to be filled. It is regarded as likely that those appointments will go to Henry W. Goddard of 52 Wall street and Francis A. Winslow of Westchester. When Judge Mayer's promotion came about friends of Representative Siegel started a movement for his appointment. It is understood to have met with the approval of Samuel Koenig, chairman of the New York County Republican Committee, and Republican leaders generally in the county. That sentiment has been augmented by the wishes of Representative Siegel's colleagues in Washington and they are hopeful that their wishes will be regarded favorably. Mr. Goddard, who has taken a keen interest in Republican politics for a number of years, also has the approval of the county organization and representatives have been made in Washington in his behalf.

### RESIST FEE IN FIGHT OVER M. P. LEVY ESTATE

Daughters of Manufacturer  
Say Bill Is Excessive.

The Misses Georgia and Augusta Levy of 45 West Eighty-sixth street, daughters of the late Marshall P. Levy, wealthy cotton goods manufacturer, have filed objections in the Surrogate's Court to the fees sought by two law firms in the litigation over their father's will. Their protest is before Surrogate Cohalan, who has yet to sign a decree admitting the will to probate. The objections to probate made by a son and two daughters were withdrawn after a compromise for \$130,000. The Misses Levy allege that the bills for \$25,000 of Remsen & Parsons of 60 Wall street and for \$50,000 by Stanchfield & Levy of 129 Broadway are excessive and unreasonable. The sisters say the senior member of Remsen & Parsons told them his fee would be \$25,000 as fixed by Daniel J. Mooney, a law partner of Denis O'Leary Cohalan, who has office space with Stanchfield & Levy. The Misses Levy assert they conferred with a member of Stanchfield & Levy in September and were told that Mr. Remsen had "mismanaged" the affairs of their father's estate and should get not more than \$10,000. Later they called on a representative of the Guaranty Trust Company, temporary administrator, but failed to win support.

### MISSING MAN LOCATED.

Gassed Veteran Believed to Have  
Lost Memory.

Frederick Shea, the young man who disappeared here on October 26 and for whom his brother Earl had come to New York from Lead, S. D., to seek was located on Tuesday in Gibson, Ind. Earl Shea said yesterday that his brother had vanished after leaving the Surplus Trading Company's office, where he was employed, to go to Hoboken to purchase army coats. Earl Shea's opinion is that his brother was seized by amnesia and simply wandered to Indiana. Frederick was wounded and gassed in France while serving with the United States army.

### MRS. FORSYTHE'S SUCCESSOR.

Arthur S. Somers of the Board of Education, announced last night that at the next meeting of the board he would bring up the matter of electing a successor to the late Mrs. Grace Strachan Forsythe, Assistant Superintendent of Schools. Candidates include most of the superintendents and several principal.

Let Every Man look  
to the Bread upon  
which he must depend

—Old Portuguese Proverb

THE ancient philosopher who penned the words of the proverb never knew a bread which was really a dependable staff of life—in fact, the world's daily loaf has ever been the supplement, not the centre of the meal.

The Ward Baking Company presents for the first time in VITOVIM a white bread which you can depend upon as an all-around food.

Depend upon VITOVIM BREAD for the essential food elements that supply growth and repair bodily wear and tear. Protein food substances, that have been found in sufficient quantities only in more expensive foods such as milk, meat and eggs, are necessary at any cost to replace the natural waste of our bodies. Ward's VITOVIM BREAD is a rich, new source of well-balanced nourishing proteins obtained from milk and wheat, and supplied to you at a fraction of the cost of many other protein foods.

Depend upon VITOVIM for the natural mineral nutrients that science declares so important. These food substances are needed to build, renew and nourish all parts of the body especially the bones and teeth. Many of our customary, everyday foods are deficient in these essential minerals. VITOVIM BREAD supplies these valuable bone-building elements, and so is good for all of us—especially good for nursing mothers and growing children.

Depend upon VITOVIM for the vitamins essential to life. Science has only recently discovered vitamins, and conclusively proved that they are essential to our health and even to our lives. The entire absence of vitamins from our food would make life impossible. Abundance of vitamins makes for better health and greater vigor. Ward's VITOVIM BREAD is very rich in A and B, two of the most needed vitamins. Eat at least a pound a day of VITOVIM, and it will go far to insure a healthfully balanced diet.

Depend upon VITOVIM for energy. VITOVIM BREAD is rich in the three sources of bodily energy—proteins, fats and carbohydrates. A pound a day supplies the fuel to drive your muscles in their round of work and play.

Get WARD'S VITOVIM BREAD from your neighborhood dealer to-day. A creamy white super-bread for daily table use. 100% Nutrition. Eat a pound a day

## WARD BAKING COMPANY

All competitive breads—home-made bread, too—are challenged to equal the nutritional value of VITOVIM BREAD in public tests!

## Vitovim Bread

The delicious, creamy white loaf created  
by science for modern man's dependence

VITOVIM BREAD is the most remarkable bread ever produced—a white bread—yet the most nourishing bread ever baked. For more than twenty years the Ward Baking Company has carried on research which has finally resulted in this wonderful new super-bread. VITOVIM represents the most revolutionary and progressive step in bread-making yet recorded. It is one of the most perfect single foods ever offered mankind.

Hundreds and hundreds of feeding experiments conducted in our own laboratory and the laboratories of leading American universities have proved that VITOVIM BREAD is beyond all question the most nourishing loaf of bread—white or any other kind—yet produced. In order to make this wonderful loaf of bread, the Ward Baking Company first spent \$500,000 in research, then built and equipped in Warren, Ohio, a million-dollar plant for the extraction of the vital elements of the "germ" or heart of the wheat berry.

The company has also arranged for the production of milk for the loaf under methods which best protect its vitamin content. The finest wheat flour with the treasure of the wheat heart restored is supplemented in the Vitovim loaf by rich whole milk. No water is used in the Vitovim dough; milk is the only liquid ingredient. No loaf—not even home-made bread—has ever been so rich in the valuable food elements of milk.

The milk content of VITOVIM results not only in greater food value, but helps to keep VITOVIM BREAD fresh and palatable for two or three days after baking. In using VITOVIM you avoid the loss of stale bread.

The food values of VITOVIM alone should decide you to make it your bread. But once having tasted it, you will buy it for its delicious flavor even if it had no other advantages. Health, economy, taste, satisfaction—all are served when you make Vitovim your daily bread.

Our New \$1,000,000 Vitamin Extraction Plant Supplies  
the Vitamin for VITOVIM BREAD

You will agree that we had to have the courage of our convictions to expend such a vast sum in order to provide a dependable daily supply in our new loaf. Every day's production will be tested and certified at the plant laboratories to insure the nutritive value of the loaf.

Every statement made in this advertisement was  
first submitted to the critical review of several  
of the world's experts in nutrition

## United Electric Service is supplied to

370 Riverside Drive, a new high class fifteen-story building recently erected in one of the most exclusive sections of the city and containing seventy-six modern apartments.

The owners and builders are the 370 Riverside Drive Corporation, B. P. Walker, Treasurer; the architects, Schwartz & Gross and the electrical contractors, Hoffman & Elias.

When in need of Electric Light or Power Service call Stuyvesant 4950. Your requirements, whether large or small, will receive the prompt attention of our Commercial Department representatives.
